

EVS INSTALLATIONS

3 Great Reasons Our Customers Prefer EVS Over Any Other Install Option!

✓ Guaranteed clean installations

that look and act just like factory OEMs. Quality control is paramount at the EVS shops. Since approximately 20% of our install work is devoted to rewiring poorly installed equipment from other shops, we know the value of a clean, dependable install. No vehicle leaves our shop without a thorough final inspection including checking against the original build sheet and purchase order and a test-run of all equipment.

- All wiring is loomed to protect wires and to prevent chaffing
- We only use hot stamped labeled wiring to clearly identify components
- Equipment is strategically placed for ease-of-use, unobstructed driving view, and undercover concealment if required
- Every car is cleaned and vacuumed before leaving the shop

✓ Drop-ship convenience

from Ford, Chevy and Dodge. Your new fleet vehicles can be drop-shipped to EVS, and arrive at your department fully equipped. By special arrangement with leading auto manufacturers, EVS offers a turn-key solution for emergency models such as Ford Crown Victoria Police Interceptors, Chevrolet Impalas, and Dodge Chargers.

- Receive the complete proposal including police vehicle equipment, installation, and delivery—all on a single bid
- Include all new vehicle costs on one purchase order
- You make the decision, we do the rest, including shipping arrangements, parts acquisition, and quality control

✓ Emergency equipment specialist

EVS is dedicated to outfitting fleet vehicles. Because EVS is dedicated exclusively to outfitting and servicing emergency vehicles, you can expect the highest standards of quality in installations and emergency product knowledge. We work closely with both the auto manufacturers and equipment vendors to ensure best practices in choosing the right part options for your vehicles and department needs, and in following manufacturer recommended installation procedures.

Service Throughout The State Of Florida With Shops in Orlando Ft. Lauderdale & Miami

With installation shops across the state, all conveniently located near major thoroughfares, **Emergency Vehicle Supply** reaches out to the law enforcement community.
